

Advance Multiple Recharge Facility

BSNL has launched **Multiple Recharge Facility** for its mobile prepaid subscribers from 10.07.2020.

Now subscriber can recharge & keep more than one PV/STV of the same denomination in advance. They should not wait for expiry of their current PV/STV.

Due to advance recharge, customer account validity will be extended automatically in same plan after expiry of first recharge for his working plan.

The advance recharge done by the subscriber shall be automatically activated after expiry of the presently operational PV/STV & the same will be intimated to subscriber via SMS.

It can be understood by following example-

- A customer has purchased PV-485 on 1st June. His validity will expire on 29th August.
- This customer can purchase another PV-485 in advance, say on 15th August. This advance voucher will start from 30th August and will be valid up to 27th November.
- This customer can again take one more PV-485, say on 20th August. This advance voucher will start from 28th November & will be valid for 90 days.

This is available as 1+2 facility. (Means customer can recharge additional 2 same denominations before expiry of first recharge done)

- **Currently the facility is available for the following selected vouchers-**

PV- 94, 95, 141, 186, 399, 429, 485, 666, 699, 997, 1499, 1999.

STV-49, 97, 98, 99, 118, 147, 187, 197, 247, 298, 319, 395, 499

- The customer using this facility before 19.11.2020 will get free 5GB data for 22 days.
- For details customer can dial call centre Toll Free number 1503
