

BSNL'S ONLINE EDUCATION SERVICE

Bharat Sanchar Nigam Limited (A Government of India Enterprise) has launched BSNL's Online Education Service through Web Portal www.bsnleclass.com for broadband customers of BSNL across India.

Ratnagiri SSA has taken extra efforts to launch this service across the India. It was inaugurated in grand ceremony held at Hotel Trident ,BKC ,Bandra Eas Mumbai by Hon'ble Shivsena chief Uddhav Thackeray in presence of Chief General Manager BSNL Maharashtra circle and general Manager BSNL Ratnagiri and sindhudurg.

In first phase BSNL E-class service is launched in selected schools of Ratnagiri and Sindhudurg District.Total 28 schools are covered in first phase.

BSNL is offering below services to Students, Teachers & Schools through BSNL's Online Education Services across India.

1. Syllabus based Educational Digital content of Maharashtra State Board for Standard 1st to 10th (Marathi, English Medium, Hindi & Urdu Medium).
2. Spoken English Course for Students of Schools & Universities.
3. Syllabus & Concept based Educational Digital content for various Regional State Boards, CBSE & ICSE Board from Nursery to 10th Standard in their Regional & English language.
4. Virtual Class
5. Online Assessments
6. Skill Development & Vocational Course Content
7. Competitive Examination E-Guide Content, etc.

These services can be accessed through BSNL Broadband connection in authenticated & secured way.

We would like to offer Syllabus based Educational Digital content of Maharashtra State Board for Standard 1st to 10th of Marathi, English, Hindi & Urdu Medium Schools which includes Syllabus based standard & subject wise Audio – Video Educational Digital Content.

About BSNL's E-class Content:

In Business partnership with M/s E-class Education System Limited we have come up with Syllabus & Concept based Educational Digital Content by keeping Edger Dale's theory in mind with following Cone of Learning which helps us to remember 70% of what we see, hear and say.

Example: There may be a chapter on Human Body in Std. 4 as well as Std. 10. But in Std. 4 students are only given an overview of all the organs where as in Std. 10 they have to do an in-depth study of each organ.

Learning through Text Books, Blackboard & Content available on Internet or any other source	Learning through BSNL E-class Content
Difficult for teacher to priorities and choose only what is required to teach	Chapter specific information
Time consuming to select each topic as per the need of the chapter	User-friendly interface, full content flows as per textbook so no extra operations burden on teachers and students
Extremely generalized and random information for the students	Easy to understand and remember
Students get confused between textbook and other content with too much unwanted information, which results in total confusion during exams for teacher as well as students.	Completely as per textbook, hence full clarity during forming answers and remembering the chapters till exam
Too much time to finish syllabus	On time completion of syllabus

Benefits to Students, Teachers & Schools:

- Bridging the digital divide and creating a strong bond between students and teachers.
- As the content is textbook based, the teachers do not have to waste time in finding videos, topics, concepts and they can easily proceed with the chapters.
- The teacher has the power in her hands to teach any chapter she wants without wasting extra time.
- The classroom comes to life with virtual content and students can look at geometry sums, history events, science experiments all on screen solved and in animated version with examples.

- Textbook based content understands the student's age, his standard and ability and then gives the correct information. The information provided is complete and as per the point.
- Covers mind map, question and answers for complete revision for every chapter.
- Make use of the existing computers in the computer labs and computer class rooms.
- The Students of Schools of Ratnagiri District can educate and empower themselves.
- Answer to the growing problem of more demand and less availability of teachers.
- BSNL's E-class Solution increases the student's success rate in class examinations.
- It's like watching a movie, the experience of studies in a movie format making it easy to remember and interesting.
- The students of Schools of Ratnagiri District will form a strong education base which will help them in the future and our country.
- Skillful people and educated working population is the prime need for a country to develop which can fulfill through this project.

Benefits to Administration:

- Online Reporting Information System
- Online User Tracking & with Tracking Usage
- History & Reporting is available on Single Click
- Reporting & Management can be control centralized
- Universal Education Quality available with updated syllabus & concept based content
- Complete browser based system
- Independent of any operating system
- All features available from the same login

Additional Features can be added:

- Can Schedule class, topics & programs
- Can map with attendance system, Static IP & MAC ID of PC
- Can be possible to connect all Schools through Virtual Class Model
- All features from Emailing to Blogs & SMS can be integrated into the same platform
